

This email is in direct response to the LPFM issue that is currently being consider by the FCC. I want my voice to be heard that if this effects my radio station K-Love that I am a monthly supporter along with 1 million other people that support it. I believe it would have serious impact on our nation and my town. It plays music that I don't have to worry about my kids listening too. It doesn't prmote anytype of music that is undermining to the gov, doesn't promote viloience or any other type of behavior that is unacceptable. K-Love promotes Love, peace and to be humble about ourselves, which our country is serious lacking. It always seems that we as Americans can't leave well enough alone. Please do not pass and or doing anything that would cause KLove to be taken off the air in my town important to me, my family and Town.

Thank you for your time

Sincerely  
Bryan Bumpus
